

sol.new

Features at a glance

Zero-friction Solana product suite: passkey wallets, create flows, payments, gifts, exploration tools, and fair draws. No seed phrases. Instant and low fees.

Site · <https://sol.new> | Directory · </dir> | Docs · </docs> | 2026-07-23

Core idea

Passkey wallet	Face ID / fingerprint. No install, no seed phrase.
Create	Tokens, NFTs, multisigs, .sol names
Move money	Pay, split, gift, onramp, portfolio
Explore	Scan, receipt, lists, launches, news
Play	Fair draws, Punt picks

Wallet and identity

Feature	Path	What it does
Passkey wallet	/wallet	Create or recover a Solana wallet secured by the device.
Get SOL	/get · /wallet/get	Onramp / fund flow (and devnet faucet context).
Send	/wallet/send	Transfer SOL / assets from the passkey wallet.
Portfolio	/portfolio	Balances and holdings overview.
.sol name	/id	Check and register a Solana name.
Sign message	/message	Prove ownership with a signed message.
Magic link	/magic	Email-linked open / recover path for passkey wallets.

Create on Solana

Feature	Path	What it does
Token launch	/token	Deploy an SPL token (Meteora DBC bonding curve on mainnet).
Token page	/token/[mint]	Public token landing for a launched mint.
NFT mint	/nft	Image to NFT (standard Metaplex or compressed).

Multisig	/multisig	Squads-style shared wallet; view at /multisig/[address] .
Genesis	/genesis/[mint]	Genesis / Metaplex-related mint flows.
Live launches	/launch	Feed of recent launches; detail at /launch/[mint] .

Money and social payments

Feature	Path	What it does
Pay	/pay	Solana Pay link or QR (SOL / USDC).
Split	/split	Split a bill, tip, share who paid.
Gift (send)	/gift	Fund a claimable link with SOL or USDC.
Gift (claim)	/claim#...	Open the secret fragment link and claim with Face ID.
Receipt	/receipt · /receipt/[sig]	Pretty, shareable Solana transaction receipt.

Gift note: The claim secret lives in the URL fragment (#...). Anyone with the full link can claim. Share only in private channels.

Fair Draw

Feature	Path	What it does
Fair Draw hub	/draw	Wheel, 1–N, coin, dice; duration + sound; history.
Wheel shortcut	/wheel	Opens draw in wheel mode.
Coin flip	/flip	Opens draw in coin mode.
Dice	/dice	Opens draw in dice mode.
Draw receipt	/draw/[id]	Shareable result (seed, hashes, slot).
Legacy alias	/vrf	Redirects to /draw .

One free draw per mode per device, then passkey connect. History on-device always; server history when wallet is connected. Entropy defaults to Solana blockhash (re-verifiable from public data).

Explore and research

Feature	Path	What it does
Scan	/scan	Wallet, token, or program lookup.
Track	/track	Alias into scan / wallet tracking.
Lists	/lists	Watchlists and quotes.
Gallery	/gallery	Token gallery.
Compare	/compare	Side-by-side token compare.
Creator	/creator/[wallet]	Creator profile; edit at /creator/edit .
News	/news	Crypto headlines.
Pods	/pods	Crypto podcasts player.

Punt	/punt	Odds / picks (free-to-play style).
What's new	/whats-new	Recent launches feed.

Site and meta

Feature	Path	What it does
Home	/	Product grid and onboarding.
Home (alt)	/home	Alternate home / product tour.
Directory	/dir	Everything on one page + external Solana links.
Features	/features	Web overview of this document.
Docs	/docs	Costs, storage, what we store.
Admin	/admin	Internal tools.
Privacy / Terms	/privacy · /terms	Legal.
Browser	/browser	In-app / PWA browser helper surface.

Selected APIs

Feature	Path	What it does
Live costs	GET /api/costs	Action costs (used by docs).
Stats	GET /api/stats	Aggregate counts.
Create draw	POST /api/draw	Create a fair draw.
Draw history	GET /api/draw?wallet=	User draw history.
Draw receipt	GET /api/draw/[id]	Single draw data.
Tx receipt	GET /api/receipt?signature=	Parsed transaction for receipts.
Gift	GET/POST /api/gift	Gift registry / claim status.

Additional APIs cover token, NFT, multisig, lists, launch, scan, subscribe, and more.

Networks

Mainnet — real SOL; fees listed on </docs>.

Devnet — test mode (toggle in nav); faucet via [Get / wallet](#) flows.

Principles

1. **Passkey first** — create without seed phrases.
2. **Shareable links** — gifts, pays, receipts, draws.
3. **Low friction** — short paths, mobile-friendly, PWA-ready.
4. **Honest product** — private gift links are bearer secrets; fair draws document entropy.
